### Directions for Use

Provide Black 3 to mature horses at the rate  
of two to four ounces (one to two scoops) per  
horse, daily.

Four ounces (two scoops) of Black 3 will  
provide optimal results for most horses.  
Serving size may be reduced proportionately  
for horses weighing less than 1,100 lbs (lighter  
breeds or younger horses).

Introduce Black 3 to horses gradually. Start  
with ½ scoop (one ounce) the first day.  
Gradually increase the daily dosage to the  
desired level over a 10 to 14 day period. Do  
not exceed four ounces (two scoops) per  
horse, daily. The enclosed ½ cup scoop will  
hold approximately two (2) ounces by weight  
when filled to the ½ cup line.
