800-831-3309

#### Feeding Directions

For canine use only to provide digestive support.

Administer to larger breeds at the rate of  
10 grams per day (one level 20 cc scoop).

Medium-sized breeds should receive  
approximately 1/2 scoop (5 grams) per day.

For small breeds, provide approximately 1/4  
scoop (2.5 grams) per day.

For more precise dosing, the use of an  
accurate gram scale is recommended.

For canine use only. Keep out of reach of  
other species and children. In case of  
accidental overdose, contact a health  
professional immediately.

If animal's condition worsens, or does not  
improve, stop administration and consult your  
veterinarian.
