Feeding Directions

Use to supplement equine diets. For use in all classes of equine (Foal, Mare, Breeding and Maintenance). For horses weighing approximately 1,100 lbs (500 kg), follow usage rate suggestions shown below. Adjust serving size proportionately, based on weight, for lighter breeds, younger horses or ponies, etc.

Healthy Skin and Coat: Feed approximately 2 to 6 oz. by weight (1 to 3 scoops) per day.

General Use/Weight Gain: Feed approximately 2 to 8 oz. by weight (1 to 4 scoops) per day.

Mature horses may be fed up to one (1) pound per head, per day as a source of protein, fiber and/or fat (as part of a nutritionally balanced feeding program). Always evaluate your feeding program for nutritional soundness prior to adding Nutra-Flax. Naturally rich in Omega-3 fatty acids! Introduce into diet gradually.

The enclosed ½ cup scoop will hold approximately two (2) ounces (57 grams) when filled to the ½ cup line.

Scoop: 1/2 Cup

REV: 4/29/20

Net Weight: 5 lbs. (2.27 kg)
