

OrthoPurSi™

Active Ingredients

(per 15 ml dose)

Silica 375 mg

Directions For Use

Each 15 ml dose will provide 375 mg of the highest quality liquid bioavailable silica. Provide a 15 ml dose twice per day. For accurate dosing, refill & use the convenient 16 oz. measure & pour bottle enclosed with your purchase. Shake thoroughly prior to use.

Using the Measure & Pour Container

Open cap on measuring chamber $\frac{1}{4}$ - $\frac{1}{2}$ turn. Gently squeeze bottle with both hands until the liquid reaches the 15 ml mark. Remove cap, drizzle onto feed. Mix thoroughly. Replace cap & tighten.

Keep out of reach of children. Not intended for human consumption. **Protect From Freezing.**

One Gallon (3.79 Liters)

Ingredients

Purified Water, Biologically Active Silica
(Orthosilicic Acid).

HorseTech®, Inc.
