## Feeding Directions

Feed ReitHoof to mature horses weighing 1,100 lbs (500 kg) at a rate of 60 grams per day. One (1) slightly rounded 48cc scoop will hold approximately 30 grams. Feed two (2) slightly rounded 48cc scoops per day to provide 60 grams of ReitHoof. Usage rate may be adjusted proportionately based upon weight.

ReitHoof may be used at a 30 gram per day rate for maintenance, lighter breeds, ponies, younger horses or in situations where lower levels of support are appropriate.

The daily serving may be divided between morning and evening feedings.
